Byce & Associates
487 Portage Street
Kalamazoo, MI 49007

This two-story branch is one-of-a-kind and the first two-story branch in Kalamazoo. The main level includes tellers and a customer service area, while the upper level is a mix of private and open offices. Joining the two levels is a beautiful curved staircase. The interior design takes cues from the exterior, including brick interior walls instead of drywall and aluminum and glass doors instead of wood.

AVB is proud to have completed this 6,082 square foot branch on time and under budget. The building exterior includes brick, expansive sections of storefront glass and metal panel. Additionally the well-developed landscaping takes its cues from the Corner@Drake development and incorporates Wisconsin LedgeStone.
