This new 156,500 SF project replaced the university's existing South Village Housing complex with stylish new 21st-century apartment-style living for students. This is the first new housing facility to be built in 37 years on campus and the three-story complex is located in the natural wooded setting on the campus of Northwood University.

The 117 units can house upwards of 160 students in a mix of 2, 4, or individual bedroom options. Each unit features open floor plans including oversized bathrooms, a living area, nine foot ceilings, and full kitchens with granite counter tops. Complex amenities include a main floor lobby with gathering area, study lounges, and laundry facilities.
