500 Griswold, suite 1700
Detroit, MI 48226

In 2018, the College of Health and Human Services partnered with AVB to renovate the second floor of the Ernest Wilbur Building to house their new Doctor of Physical Therapy program. The updated space added 13,000 SF of classroom, lab, and office space to the college

The new program required a complete gut of the second floor to create new, state-of-the-art spaces. The renovation includes physical therapy lab space, administrative offices, and high-tech lab style classrooms. In addition, the space also includes updated kitchen and lounge space for CHHS students, staff and faculty.
