Architect  
Slocum Associates  
521 S. Riverview Dr.  
Kalamazoo, MI 49004

When this credit union sought to expand its corporate headquarters, it selected AVB to manage the total renovation and addition process. Through the construction of a sustainable design and key site management throughout the construction process, this financial facility **earned the Green Building of America Award** in 2010. In addition, this entire construction project was completed while maintaining occupancy in the building so ECCU could continue to serve its clients without interruption.

ECCU teamed with AVB in order to accomplish the 35,000 SF addition and remodel of their Oshtemo Branch and Executive Offices. The project incorporated many green elements providing for energy efficiencies and sustainability. ECCU held an Arbor Day celebration including credit union members, family, and friends to plant over 90 trees which included replacement of those trees that were removed to accommodate the expansion of the new building.
